Mr. William Casey, Director
Central Intelligence Agency
Washington, DC 20505

Dear Mr. Casey,

29th Anniversary!!!

The completion of this summer's program marks the twenty-ninth U.S. Navy - U. S. Marine Corps - Canadian Forces class for the Quality Control in Photographic Processing course at R.I.T. On the evening of Thursday, August 2nd, the final banquet of the program will be held at the Scotch 'N Sirloin, Todd Mart Plaza and, on the following morning, the class presentation of the course summary laboratory project and the graduation exercise will take place in Seminar Room B at the College of Graphic Arts and Photography building on the R.I.T. campus.

While we recognize there are great travel distances and limited travel budgets involved, we wish to bring these functions to your attention in the event that you could make your way to Rochester. We regret that limits to our funding will not pay for the expense of your trip. We would however, like you to be our guest at the banquet, and we would welcome the opportunity to show you our facilities which house the largest photographic school in the world, to discuss topics of photography with you, and for you to spend some time with us.

It is a pleasure to teach this course and to be involved in this and other ways with Navy - Marine Corps - Canadian Forces photography. We would welcome the interaction of your visit. Please let us know if you will be able to come to Rochester and of any assistance to your visit we may provide.

We hope you will be able to attend this year.

Very truly yours,

Dr. Ronald Francis, Program Manager
U.S.N. - U.S.M.C. - C.F. Program
